THE MINDING CENTRE
Singapore

2002-2016

The Minding Centre, based in Singapore, is part of Piya Tan's Dharma ministry. It was founded in 2006 to provide Dharma-based non-religious service to those in need of counsel and solace. It also serves as a haven and hub for those seeking Dharma by way of meditation and education, Sutta study and translation, and spiritual experience. The Centre also supports and promotes Piya Tan in his full-time Buddhist and related work.

The Living Word of the Buddha Project aspires to encourage and facilitate Buddhist Studies, both in a Dharma-moved academic manner for Buddha-centred personal development as well as Sangha-inspired outreach work. The Minding Centre and the Living Word of the Buddha project are motivated and guided by the vision of mere Buddhism.

The mere Buddhist vision. We aspire to learn, teach and practise mere Dharma, or “non-religious Buddhism,” that is, Buddhism as simple as possible, as the Buddha Dharma, so that it is open to all who seek true stillness and liberating wisdom. We aspire to compassionately and joyfully proclaim the possibility, necessity and urgency of gaining spiritual liberation in this life itself —at least as a streamwinner, with or without dhyana—in keeping with the Okkanti Saṁyutta (S 25). *Mere Buddhism is easy: live it and be free*

CONVENTIONS & NOTES

READ THIS FIRST (How to use the SGI)

Look up the Pali term or the English term that you want, and follow the references or cross-references. Read at least Section I below. Whenever you are not sure of an abbreviation or convention in the Index, look it up here below.

I Conventions

References are, as a rule, to Sutta Name or Text Numbers,xxx (where xxx, *after a comma*, refers to paragraph, section, stanza or line).

Disregard initial articles "A," "The," etc, in titles.

Conventions and remarks are given in *italics*.

Pali and Sanskrit (Skt) terms are given in roman, usually within (round brackets). Unless otherwise stated, such terms are in Pali.

II Symbols and Abbreviations

. &	A comma separates the main elements of a compound. A dot separates the elements of a term or phrase within the compound. Eg <i>gaha.pati,putta</i> = <i>gaha,pati + puta</i> , "houselord's son."

Preface

to the provisional edition 2016

This is a provisional Sutta Glossary Index (SGI) released for the benefit of those using the SD series, and also to solicit feedback for improvements from such users. The materials here basically come from SD 1 up to SD 6.1, completed in 2013, and also selections from other SD chapters. This indexing was suspended so that I could continue with the translation work. Once again, I am resuming the index work which may take up to 2 years. Work progress will be slow, as we now have 53 volumes, totaling over 10,000 A4 pages.

After 15 years of sustained efforts, the Sutta Discovery (SD) series of Pali sutta translations and related essays has grown into a modern commentary on the **early Buddhist texts** (EBT), the earliest records we have of the teachings of the historical Buddha. The SD series is also a valuable survey of the Buddhist social ethics of our times.

To facilitate word-search, related numerical sets of teachings are listed together. The “5 precepts,” for example, has the main reference under **sīla 5**, with cross-reference as “pañca,sila” and “precepts 5.” The advantage of following the “numerical dharma” sequence is that **related sets can be seen at a glance**. So, we have the useful sequence of headers: **sīla, sīla 4, sīla 5, sīla 6, sīla 8, and sīla 10**. Here I have followed the traditional Thai sequencing by placing the number after the headword to facilitate indexing.

As this is only a provisional publication of a work in progress, you are welcome to suggest corrections, additions, and improvements to the SGI. Enjoy the fresh simplicity and efficacy of early Buddhism.
